  12. DO NOT operate this product with an external timer or remote control system.

## Product Structure

# Operation Instructions

## Before Cooking

1. Wash the glass pot thoroughly. Add in food ingredients and a suitable amount of water (we recommend you use warm water, this will shorten the cooking time needed).
2. Use a dry cloth to wipe dry any water on the bottom of the glass pot and the surface of the heating base.
3. Make sure the product base is placed on a flat and level surface. Place the glass pot on the heating surface, and place on the pot lid properly.

### ⚠ WARNING!

- DO NOT overload power socket or share power supply with other appliances.
- DO NOT directly pour hot water into the cooker.
- DO NOT touch the lid or glass pot during cooking or immediately after cooking.
- DO NOT add cold water into glass pot immediately after cooking.

## Connecting To The Power Source

1. Attach the power cord securely into the power cord interface, then insert the plug side into a wall socket. Make sure the supplied power voltage matches the product's required voltage.
2. After turning on the power, the buzzer will beep once, the whole LED display panel will light up, and product enters Standby status.

### Note:

In Standby status, if product is left idle for 15 seconds, it will automatically enter Sleep status, LED display flashes "--:--". To wake up product, press "Start/Cancel key" and product will re-enter Standby status.

# Operation Instructions

## Start Cooking

1. In Standby status, press Function key to cycle among "High-Medium-Low-Keep Warm" functions. The corresponding indicator light will flash.

Function	High	Medium	Low	Keep Warm
Default time	3 hours	4 hours	5 hours	8 hours

2. If user wishes to adjust cooking time, press Timer key to enter into Timer Setting (hour), press Increase key or Decrease key to adjust cooking time from 1-24 hours; then press Timer key again to enter Timer Setting (minute), press Increase key or Decrease key to adjust cooking time from 00-59 minutes.

### Note:

- Short-press Increase key or Decrease key to adjust timer by 1 hour or 1 minute.
- Long-press Increase key or Decrease key to speed up timer adjustment.

3. After selecting function and time, press Start/Cancel key to start cooking. Function indicator light will flash continuously throughout the entire cooking operation.
4. After cooking is completed, product will automatically enter into Keep Warm function. Buzzer will beep continuously until user presses Start/Cancel key to acknowledge cooking has completed.

### Note:

During cooking/keep warm process, press Start/Cancel key will cancel cooking/keep warm and product will return to Standby status.

5. When Keep Warm time is up, LED display will show "--:--", and product will return to Standby status. When user finishes using this product, unplug it from the power source.

## Cleaning and Maintenance

### WARNING!

Disconnect the product from the power source and let the glass pot and heating base cool down completely before cleaning.

1. DO NOT immerse the slow cooker heating base in water.
2. Use moist towel or soft cloth for cleaning. DO NOT use hard objects or metal scrubber to avoid scratching the product's surfaces.
3. If the product emits strange noise or severe vibration, DO NOT disassemble it yourself. Unplug the product from the power source immediately, then contact a professional licensed technician or our Customer Service & Repair Centre for diagnosis and repair.
